

問題：報告輸出成 PDF 檔出現亂碼

原因：報告輸出時設定的字型無中文字體

解法：變更”報告屬性”中的字型參數，選擇”新細明體”，”標楷體”，...等中文字型即可輸出有中文內容的 PDF 報告。

The screenshot shows the Remark Quick Stats software interface. The main window is titled "Remark Quick Stats" and has a menu bar with "檔案", "編輯", "觀看", "工具", and "協助". Below the menu bar are tabs for "資料" and "報告". The "報告" tab is active, and a "報告屬性" (Report Properties) dialog box is open, with a red circle highlighting the "Font" (字型) icon in the toolbar. The left sidebar lists various reports, including "101 - 學生統計報告", "102 - 比較評分報告", "103 - 班及次數分佈", "104 - 測驗統計報告", "201 - 詳細項目分析報告", "203 - 項目分析圖報告", "204 - 簡要項目分析", "207 - 測試項目統計報告", "208 - 交叉表格報告", "301 - 個別學生評分報告", "401 - 依項目作答報告", and "402 - 依作答者作答報告". The main content area displays a "班級次數分佈報告" (Class Frequency Distribution Report) for "全部" (All). The report includes a table with columns for "評分" (Grade), "百分比分數" (Percentage Score), and "原始分數" (Raw Score). Below the table is a 3D bar chart titled "成績分佈" (Grade Distribution) showing the frequency of students for each grade (A, B, C, D).

全部	中間值分數	
評分	百分比分數	原始分數
A	90.00 - 100.00	45.00 - 50.00
B	80.00 - 89.99	40.00 - 44.99
C	70.00 - 79.99	35.00 - 39.99
D	60.00 - 69.99	30.00 - 34.99
F	0.00 - 59.99	0.00 - 29.99

成績分佈

Grade	Frequency
A	2
B	10
C	4
D	1
